

Employee Offboarding Software with built-in checklists

The professional - and productive - way to say goodbye. Streamline your processes with offboarding checklists, custom workflows, and more.

Features and Benefits

-  **Parallel checklists by country and role**
Run IT, Finance, Security, and HR tasks at the same time. Route automatically by country, department, and employment type to cut exit time.
-  **Bulk operations for high volume**
Upload, complete, or reassign 100–500 tasks in one action. Validate imports and fix errors fast with returned files.
-  **ADP Vista + SuccessFactors intake**
Align inputs to Vista templates, auto-ingest outputs, and flag mismatches. Trigger workflows from SuccessFactors resignations for a clean handoff.
-  **Leader dashboard with bottlenecks**
See in-progress, overdue, and SLA breaches by department and owner. Filter by country or BU and export CSV, Excel, or PDF for reviews.
-  **Exit portal for approvals and queries**
Give every leaver a clear task list, documents, and a final-settlement review step. Capture approvals or disputes and route questions to the right team.
-  **Audit-ready controls and accountability**
Track every action with timestamps and approvals. Use automated reminders and daily digests to keep owners on schedule.

Why Teams Choose Offboarding by HR Cloud

-  **Complete or reassign 100–500 tasks in bulk**
-  **Keep every action in an audit trail with timestamps**
-  **See bottlenecks by department and owner in real time**
-  **Run tasks in parallel instead of waiting in line**
